1) Define a problem statement and give a brief Executive summary Snapshot.

a) Executive summary.

b) Project description.

c) Scope.

→ a) Executive Summary:

Using Understanding pets ownership in a community is an important factor. In urban areas pets like dog, cat, rabbits, parrots and many more, the percentage is low, while in rural areas the percentage of pets is high. Finding the problem is pets in rural areas didn't get the proper treatment or issues regarding their health. On a daily basis, pets are extremely time consuming as they need to be fed, exercised everyday on time. From the rural areas owner allowed their pets to roam freely.

Sometimes there should be some health issues of their pets so the owner not able to do the best treatment for their pets on time. Basically it can be ignored later.

b) Project description:

Knowing all these problems, we will ensure offer an application known pet-site. In that website, the owner should log in their details about them or the pet's also. The application gives the best treatment for the pets on time regarding their health issues. It provides more facilities for them.

c) Scope :-

In future, there is more user or it will have scope for the application. It provides medicines and health care to the pet's owner. The result were best based on the responses. The surveys were available anywhere anytime. People can take online appointments and the payment should be taken on the application as well.
